

BOOTH Seating

The Diner Bar stools leans towards the styling of a 50's American Diner. Large section steel tube legs and foot rail bent, curved and welded into place give the piece a more contemporary feel. In this example though, where 'fire engine' red vinyl with white piping are used, of course it's all 50's.

PRODUCT CHARACTERISTICS

- Generous foam cushioned bench seat.
- 50's themed - contemporary options.
- Privacy panel option.

DIMENSIONS (cm)

Height	1130 (bench)
	1300 (panel)
Depth	75
